Counseling Corner: Happy Winter Break!

The Galileo School of Math and Science Counseling Department is excited for our students to have a great Winter break and will be ready for the New Year and all the excitement that a New Year will bring. When our students return, they will be given new schedules that will reflect a change in their Encore class(es). Also, with the New Year 8th graders will begin the high school registration process with the high schools that they are projected to attend. We will also have other high schools come and present to our students about other opportunities that D11 has to offer. Remember that D11 is a choice district and if there is a school or program that is best fit for your student, a permit will need to be filled out at the desired school. For our 6th and 7th graders, we will be spending more time talking about post-secondary options and setting goals.

We are excited for the New Year! Please remember that we are available to support your student and want to help with their success at school.

“Galileo’s green thumb is showing its best side this winter. With tremendous help from our students and staff, we have begun transitioning into our next growing season. Currently the greenhouse is feeling the deep chill, but in true Galileo spirit, it never stops providing strong rooted educational values. We are pleased to be providing weekly fresh veggies right to our kitchen giving our scholars healthy daily choices. We are continuing to count on volunteer and community support. To find out how you can help or donate to our wonderful program; please contact our Master Gardener Renelle Palmer renelle.palmer@d11.org”
