District Strategic Plan Alignment Considerations

The core components of the DSP are more aspirational in nature, and the DSP targets three specific audiences: students, the district at large, and parents/community members. The target audiences are categorized as:

- Students this pertains to all students, and none are exempted based on differentiated programming or student impact needs (e.g., special education and English Leaners). This establishes the foundation for D11's focus on student equity.
- Colorado Springs District 11 this includes all staff employed or contracted by the district. It is important to include ancillary staff like contractors in this definition because of the direct and indirect impact they have on students.
- Parents/Community this refers to all parents, guardians, and community members within the boundaries of D11.

Within the three target audiences addressed by the strategic plan, we identify sub-categories impacted within each one. For the table, the sub-categories are specifically defined in the context of the DSP include the following:

Students

- Equity This was defined as ensuring all students are receiving the support needed to be successful.
- Engagement Does the program contribute to a student's abilities to progress in their learning?
- Outcomes Does the program impact a student's learning and educational outcomes? Learning outcomes are the objectives and standards schools and teachers want students to master; and educational outcomes are the educational, societal and life effects achieved because students are educated (e.g., "Each student will develop personal, social, and cultural competencies and apply them intentionally in their lives.")

Colorado Springs District 11

- Equity Does the program support and equip D11 staff to provide equitable learning environments for all students?
- Engagement Does the program support D11 staff with the tools they need to provide students with better access to learning; and do they have the tools needed to support and motivate their delivery of high-quality instruction?
- Outcomes Does the program impact the ability for D11 staff to provide a learning environment and instruction conducive to improving learning and educational outcomes; and does the program impact staff's quality of life in terms of being more successful and able to do their work?
- Foundational Does the program impact and support the district's ability to provide better learning environments for staff and students; and does it support or improve its ability to support and operate as a school system overall?

Parents/Community

- Equity Does the program support families, neighborhoods, and the community with appropriate access to the support needed for successful collaboration with the District's Core Values?
- Engagement Does the program support families, neighborhoods, and the community with opportunities to successfully partner with D11 and students to encourage a "passion for continuous learning?" (DSP Vision)
